Link between BASIS (HISinOne) and eCampus (ILIAS)

BASIS (HISinOne) is the University of Bonn's central portal for lecture and examination management. eCampus (ILIAS) complements it as a learning platform for providing materials and digital teaching content. The link allows classes from BASIS to be transferred directly into eCampus courses, where additional functions such as communication, learning modules, assignments and online tests can be used.

A few steps are necessary to ensure that courses are transferred to eCampus smoothly. Please read the instructions carefully.

Requirements for the transfer of events

Lectures in BASIS (HISinOne)

- The lecture must be correctly entered in the BASIS system and enabled for the respective semester.
- The lecturers are assigned to the lecture.
- Students must be admitted in order to be transferred.

Manual linking (activation of the connection)

The link between BASIS and eCampus has to be activated for each lecture manually.

Permissions and roles

Persons with the roles of *Teacher*, *Department Administrator* and *Teaching Organisation Supporter* stored in BASIS can activate the transfer (link) to eCampus.

Activating the link for a lecture

The connection must be activated individually for each lecture and is done in several steps in the editing mode.

1. Choose the course

Found Courses

	Number	Title of course	Kind of course	Responsible lecturer	Performing lecturer	Organizati
  	550000611	1000 years Panji myth: tradition and transformation of an immaterial cultural	Project			Philosophis Fakultät, ur

Links

 Assign to external system

5. "Neue Zuordnung hinzufügen": select eCampus

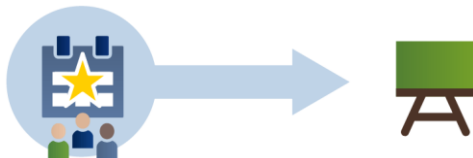

6. Choose a course mapping type

Description of course mapping types

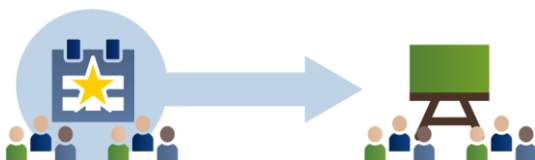

- **Veranstaltung -> 1 eCampus-Kurs**

Only one eCampus course is created (without parallel groups).

- **Veranstaltung mit PG -> 1 eCampus-Kurs mit Gruppen**

One eCampus course is created in which all parallel groups are represented as subgroups of the course.

- **Ilias: pro PG der Veranstaltung -> je 1 Ilias-Kurs**

A separate eCampus course is created from each parallel group of the BASIS lecture. The lecture as a whole does not receive its own course.

7. Activate the roles of the lecturers (responsible/performing) and save the assignment

Neue Zuordnung hinzufügen Alle Zuordnungen löschen

	External system*	Course mapping type*	Responsible lecturer	Performing lecturer	Actions
	eCampus	Veranstaltung -> 1 eCampus-Kurs	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	

Save Cancel

8. Select, add and save additional persons

Description	Additional persons for external tool	Actions
<p>Veranstaltung -> 1 eCampus-Kurs</p> <p>● 1410 Toxikologie der Hilfs- und Schadstoffe - Seminar - course</p>		

Committee name, First name, Surname OR Department

Defaulttext: Fachgruppe Pharmazie, ... **1** **Search for persons** Person Search

Name	Organisation units	Actions
	university Show all	2

What exactly is being transferred?

After synchronization, the roles are automatically assigned in eCampus: lecturers as “course administrators” and approved students as “course members”.

Where can I find my course in eCampus?

Once the synchronisation is complete, you will automatically find your course in the main menu under “**Personal Workspace/My Courses and Groups**”. As soon as you add your course to your favourites, it will appear on your Dashboard.

Important information

- The course title corresponds to the information in BASIS and should also be changed in BASIS if necessary.
- Courses in eCampus are sorted according to the following pattern: *semester -> degree -> module -> course*.
If a course is assigned to multiple degree programs, no priority can be defined in BASIS. Therefore, the course is assigned randomly to one of the degree programs. Everywhere else, there is an automatic link to this course so that it can be found.
- As far as technically possible, the synchronisation will be carried out daily.
- The permission to delete a linked course has been removed to avoid problems caused by the link type being changed multiple times. Existing linked courses can now only be removed by the eCampus team.
If you would like to remove a linked course in BASIS, please contact the support team at ecampus@uni-bonn.de.
- A direct link (button) from the BASIS lecture to the eCampus course will only be available in the next version. In the lecture's edit mode, you can create a new link via the 'Links' tab and manually add the link to the eCampus course.

Term planning

The screenshot shows the 'Term planning' interface. At the top, there are three tabs: 'Term dependent events', 'External systems / eCampus', and 'Links'. The 'Links' tab is active, indicated by a yellow circle with the number '1'. Below the tabs, there is a button labeled '.Create new link' with a yellow circle '2' and a yellow arrow pointing to it. Below this button is a box that says 'No links present'. Below the 'No links present' box is a form with the following fields:

- 'Description' with a German flag icon and the text 'Zum eCampus Kurs' (with a yellow circle '3').
- 'Translate:' with German and English flags and a yellow circle '4'.
- '* URL' with the text 'https://ecampus.uni-bonn.de/goto_ecampus_cat_2763683.html' (with a yellow circle '5').

 At the bottom of the form are two buttons: 'Save' (with a checkmark icon) and 'Cancel' (with an 'X' icon).

- Current information on „BASIS-eCampus-synchronization/course linking” can be found on the learning platform support page https://ecampus.uni-bonn.de/goto_ecampus_cat_2763683.html
